

Healing Therapy.. How to get started

Simply telephone one of our centres, which are listed below, and arrange to see our free introductory video documentary on the therapy. After the video you can make an appointment to see the therapist on an individual basis to familiarise yourself with the approach and to get an understanding of how it works. Then the therapy is conducted by coming to classes (approx. 1 hour) twice a week... *The ultimate aim of the therapy is that you learn to use the system for yourself.*

New-found love for life itself

I used to be the type of person who although I seemed to have a lot going my way and to others would have been quite successful, I felt there was some piece of me missing or something more I wanted. This feeling grew and grew until even the successful areas of my life seemed to deteriorate and leave me with an even worse gap or void. By chance I decided to try the healing therapy in Cork and from the minute I went there I knew I'd found exactly what I was looking for. It was as if I had come home at last, the search was over. I knew I was on the right track. I discovered I had all I ever want inside myself. I began to feel whole,

less divided, more confident but in a totally different way to the general understanding of confidence. I now feel a great love for life and for other people. I see myself and

everyone else in a totally different light. I feel I belong. I have a purpose. I feel connected up to all around me and ultimately to God. I now know what Tony Quinn

means when he says each and everyone of us has awesome potential which sadly for many is not yet uncovered. I can see my life becoming more and more successful as I continue to tap into his boundless potential. I have just finished a week-long residential seminar with Tony in Dublin and I can honestly say it has changed my life forever. On returning home I'm receiving reports from friends and family on wonderful things that have been happening for them while I was away. I want to thank Tony and his staff for giving me the key or control to have what we all long for in life - love, happiness, health and success in whatever area of life we choose to pursue.

Depression

Since I have started to attend the healing therapy I became a new person. I suffered with depression and

had no confidence within myself. I felt lost and I longed to find the right relationship for me.

I am now delighted to say that after three months all my wishes have come true. I feel more relaxed with a more positive attitude about life. I have found peace within myself but most of all I have found the real me. I now feel relaxed with myself, safe and happy. I no longer worry and everything just seems to fall into place.

Thanks to Tony Quinn for making my life more positive.

My life is better

I started attending the classes at Eccles Street about five months ago. Since then a great change for the better has come over my life. My business has improved by about 200%. I can hardly cope with all the new business and clients that

have come my way. I have had lots of requests come about for me also. All I have to do is to let go of the things that are causing problems in my life and then they come right for me.

Videos worth seeing

We know you are amazed when you read some of the testimonials and maybe you feel they are too good to be true or are isolated cases. That's why we are now recording them on video. Some of the people, who through the formula/philosophy have achieved a richer life and/or overcome illness, have kindly consented to tell their story in the hope that it will help and encourage those who find themselves in similar situations. They truly make inspiring viewing. For times of showings call any of our centres. You will be most welcome.
