

# Postal Requests Results

obtained through prayer and positive thinking.

## Working on Your Requests

We will work on your requests with you. Postal Requests allow you to make a request for yourself or another, for healing or life-improvement. Working with a photograph of the patient on a daily basis, we use the Tony Quinn system of prayer and

Your Postal Request Team: Tony Quinn and Aileen Cowman.

positive thinking for a successful outcome. It can take place without the therapist and patient meeting. Distance is no problem and it can be conducted by post. In this way we can work together for a successful outcome.

Our purpose is to encourage people to use this system for requests and for a better life, so we also send you further information to enable you to work this system for yourself. Here is a selection of just some of the latest results and testimonials from people we have worked in conjunction with.

*While no guarantee of results in any individual case can be given, no limitations can ever be placed on the power of this system's philosophy.*

## New Lease of Life

I want to thank you for the wonderful healing brought about for my dad through Postal Requests. When my mother died three years ago, my dad's health started to deteriorate. He had a heart bypass operation ten years ago and he started having problems again. He started waking up at night with angina pains and also breathlessness. Every other day he was taken to hospital. He lives alone and he became very lonely and depressed. Nothing we could do would bring him out of it. He didn't want to go anywhere. I could see him going downhill more and more.

At that point I decided to put a request for him on Postal Requests. The effect was pretty instantaneous. The breathlessness stopped as did the pains in his chest. Every time he goes to the hospital for a check-up he gets a better report. Socially, he is having a great time. He joined some clubs in his area and went on a holiday with them. At the moment he is on an extended holiday with my brother in Australia. I think you'll agree for a man of seventy six years of age, who didn't want to go outside the door it's pretty good. Thank you again for the wonderful work that you do. Keep it up.

Winnie McKenna

## Job Results

I put myself, my brother and his girlfriend on Postal Requests. They had both been out of work since before Christmas and there was absolutely no sign of any work coming their way. I was also having lots of problems in my own job. Within two weeks of starting the requests my brother's girlfriend got full-time work. My own work situation changed completely for the better and a short while after the request was up my brother got full-time work also. I have used the Postal Requests for many situations always with the same success and I would recommend it as the easiest way of solving problems and achieving success for yourself or anyone else.

## Cancer

I am writing this letter to let you know about some of the results of the Postal Requests. There was the girlfriend of my brother in law: she had cancer in her breast a few years ago. At the time she got the all-clear and didn't bother going back for a check-up. Two years later she had a problem again which is now seven or eight months ago. She went back for a check-up and was told that the cancer was back — this time in her shoulder. She was told to tell her parents she had only about four or five months to live. I put her on the Postal Requests and after four months she was given the all-clear. The changes in the lives of my family myself and others have been brilliant.

Thanks  
Chris, Dublin

## 24-Hour Worldwide Service

I attend the healing classes in Eccles Street. I arrived at the classes in a desperate physical and mental state having spent some years working all aspects of my life into a total mess. Now my considerable health, financial and employment problems have been resolved. I am healed as a person. The direction and quality of my life have been totally transformed. I have found the happiness, peace, freedom and security in my new self which I have always been looking for (but in all the wrong places).

Now, I find the centre is also offering a twenty four hour, same day worldwide service called Postal Requests. This means that if I see someone struggling with their life or in some difficulty, I simply put them on Postal Requests and after only a week it is a joy to witness their happy eyes and brighter faces. Through the healing classes I have found my real self, and through the Postal Requests I have found the ultimate gift to bestow upon my family and friends.

John C. Dublin.

## Pregnancy

I went on Postal Requests for the last month of my pregnancy because on my first two children I had a very bad labour which lasted 22 hours on both. On this pregnancy the labour lasted only three hours. Even the nurses could not believe it, they had said I would be there until the next morning. He was a big baby weighing 10lbs 4ozs. They could not believe how quick I had him.

I would recommend Postal Requests to anyone who is worried about their labour.  
Caroline (Dublin 7)

## PLEASE THANK ANXIEA

I suffered terribly for ten years from anxiety and panic attacks. I felt I went through the mill. I was out of work for two months with the problem and I was so bad I couldn't see myself going back. I prayed every day that God would put his healing hand on me and give me strength. I was confiding in my friend

telling her how bad I was feeling and she gave me a copy of "Blueprint for Living" to read. Straight away I sent in a Postal Request and one week later I was back in work feeling very confident. Since returning to work my weekly income has doubled. I now attend the therapy and I never felt better in my life.  
Annette (Northside)

## VIDEOS WORTH SEEING

We know you are amazed when you read some of the testimonials and maybe you feel they are too good to be true or are isolated cases. That's why we are now recording them on video. Some of the people, who through the formula/philosophy have achieved a richer life and/or overcome illness, have kindly consented to tell their story in the hope that it will help and encourage those who find themselves in similar situations. They truly make inspiring viewing. For times of showings call any of our centres. You will be most welcome.
