

# Postal Requests Working for Family and Others

Many people use "Postal Requests" to make requests for their families. Often they have very specific requests and at other times the requests may be for general wellbeing. Here is a selection from Family Requests...

## Instant result

**T**have an active beautifully healthy child so one morning I was more than surprised to be met by a pale and listless child. She lay on the chair not wanting to eat or play and she complained of pain in her neck. At first I panicked but then I thought of Postal Requests and rang in a request immediately. Well, within five minutes she was running around and eating. I think the Postal Request system is an easy and brilliant way to sort out what you want without the fuss of worrying. *V.E.D. (Dublin)*

## Exam Results

**D**ue to a long-term illness, not only was I physically affected but my memory and concentration became very poor. However, since being involved with the healing therapy I have noticeably improved in every way and I notice I am getting better and better all the time. Even I was amazed by my exam results - they were brilliant. That was my first major undertaking in years. I have been able to stop my medical treatment now and have renewed confidence in myself and my abilities. I am more positive than I have been in years. Many thanks. *C. M.*

## Multiple Family Benefits

**M**y brother had finished his degree exams in June '91 and he still had no job and this was now March '92. Two brothers were doing their driving tests and one of these was doing his final exams also. I decided to try out Postal Requests. Within two weeks both brothers had passed their tests. The one who had finished his degree got three job offers in the space of two days. He's now working in one of them. Some of the side-effects of Postal Requests were quite amazing. I put down the whole family on the request and I didn't write down anything specific for some of them. My father won several different cash prizes totalling more than £1,500. My sister won a major Irish dancing championship and beat two other teams from the same dancing school, considered superior. She then went on to do well in the world championships and won a solo dancing prize a couple of weeks later. I was offered a job also. My mother said she was more relaxed than she used to be before. *M.K. Dublin*

## Sports Achievements

**M**y younger sister took up swimming as a sport two years ago at the age of six. She went from strength to strength and decided to enter some galas which run for a few weeks over the year. She seemed quite nervous at first so I decided to put her on Postal Requests for her nerves and to give her a large boost of confidence. She began to

enter galas with a totally different viewpoint. Where she would be quite sick previously on the day of the gala, she was now very confident, so much so in fact she was leaving the other opponents behind. Her training was also particularly successful with

her concentration and skill becoming brilliant. Recently she approached me just before a gala under some pressure. After I reassured her that she had magic from the Postal Requests (and also after making a particular request to Tony) she became very happy and assured that because of this she would do very well. She eventually won four gold

and one silver medal in that particular gala and also did very well swimming in an under eleven's gala at only eight years of age. She feels at this stage that she has a magic gift inside from Postal Requests and wants to use it all the time. *Geraldine Leggett*

## Cancer Result

**M**y mum became very ill and was diagnosed with cancer. This was her fourth recurrence in two years. Things did not look too good. Mentally we did not think she would have the strength to fight it again. I put her on the Postal Requests and from that moment my mum began to show a wonderful sense of courage and strength. She began to show her true fighting spirit. When mum was going through her treatment she got a great surprise. A trip she had always longed to make came about totally out of the blue. This really made a difference to her. Mum was not aware she was on the Postal Requests, but she began to feel there was something looking after her. She described it as a holy spirit and a guardian angel guiding her back to a healthy normal life. I know this was the energy from Postal Requests.

I have seen my mum recover and I know that so much of it was thanks to the Postal Requests. If anything like this ever happens again I know now where to turn to. I am forever grateful to Tony Quinn and his team. I wish to withhold my name as my mother is unaware of the request. *Name with Editor.*

## Stroke

**M**any times over the last number of years I have used Postal Requests for myself and my whole family with wonderful and often immediate results. My uncle had a stroke which left him without speech and his co-ordination was bad. Even as his speech began to return he spoke backwards. Not only has his speech improved 100% but as an added bonus he has become much more himself and his relationship with his family is now better than ever. *Frank. (Dublin)*

**Special Note**  
All letters in this paper are genuine. The originals are retained on our files and can be inspected where necessary

## New Positive Me

**I**'m a really different person since I've started using the Postal Requests. My outlook on life has changed from someone who was always afraid to try new things, had a negative self-image and next to no confidence in my own abilities, to someone who really enjoys life and myself to the full. I'm much calmer and content in myself - I get on so much better with my family and friends and I'm really achieving what I want in the areas of work and health.

worked against myself. With the Postal Requests I've really become aware of all that's good and happy and life-enhancing within me and in this way in situations I see the possibilities and not the problems, the opportunities and not the difficulties. For the first time I really believe in myself and the strengths and talents that I have and the difference in my life as a result is so much better than I could ever have imagined. I'm 100% changed and I'd recommend this system to anyone who wants to get the very best out of life. *Jeannie (Dublin)*

Postal Requests, 66 Eccles Street, Dublin 7.

## Relationship Improved

**M**y sister phoned me one day anxious and upset. She was feeling rather hopeless and felt like giving up. Her husband and herself were having major problems and she really did not know where to turn. At the time I felt the only thing to do was to suggest Postal Requests. She decided to give it a try and immediately put her husband on the requests. Within five days she phoned me again with the good news. Her relationship with her husband has improved remarkably and as a result of that everything seems to be going better for her. She later told me that the two of them were spending more time together. She was absolutely delighted with the results and so was I. It feels great to be able to give someone you care about the option of using something that really works. Thanks again. *J.W. North Co. Dublin*

**Kidney Stones**  
About two months ago I was taken into hospital in terrible pain. It was so bad that they had to knock me out with injections. X-rays showed I had two quite big kidney stones. More and more X-rays were taken to show the exact location of the stones. One of the X-rays showed up another blockage which the doctor was concerned about and I was told they would have to operate. I was determined not to have any operation so I contacted the Postal Requests. Almost immediately the stones just broke up themselves and passed out. Over the next couple of days I could feel healing taking place in my body. I simply knew everything was going to be fine and indeed it was. The very next X-ray showed up clear. No operation was necessary and I know the doctor was most surprised. He didn't know what was going on at all. All the people in my ward wanted to know what was happening with me my results were so good. I have just come home from being on a seminar with Tony Quinn and I have never felt so at peace with myself in my entire life. *Gerrie. (Dublin)*
