

Postal Requests Results

Obtained through prayer and positive thinking

Working on Your Requests

We work on your requests with you. Postal Requests allow you to make a request for yourself or another, for healing or life-improvement. Working with a photograph of the patient, on a daily basis, we use the Tony Quinn system of prayer and positive thinking for a successful outcome. It can take place without the therapist and patient meeting. Distance is no problem and it can be conducted by post. In this way we can work together for a successful outcome.

Your Postal Request Team: Tony Quinn and Aileen Cowman

Our purpose is to encourage people to use this approach for requests and a better life, so we send you further information to enable you to work this system for yourself. Here is a selection of just some of the latest results.

While no guarantee of results in any individual case can be given, no limitations can ever be placed on the power of this system / philosophy

Alcoholism

As I was sitting over breakfast the Blueprint for Living paper came through my door. I started reading about the successes in the Postal Requests section, the yoga etc. At the time I was suffering with alcoholism and I was wondering what I should do.

I never realised until a few weeks ago that my son that very day had put in a Postal Request for me. That was the day I stopped drinking and have not had a drink or any medical help for the condition and that was five years ago. It was simply the request was handed in and like putting out a cigarette that was the end of it.

Iris (Dublin 6)

Money Request

I must let you know of my windfall. I asked for £800 to cover the cost of the course I'm doing and for repairs for the car. Well I got a cheque the other day for over £900 - nothing like doing it in style.

Many thanks
Mary

Smoking

I put in a request for my mother as she was smoking over sixty cigarettes a day and had other health problems.

I never told her I was including her on the healing. She gave up smoking within days and her health has improved so much that she is having a wonderful life. It is seven months since I made the request.

Renata (Dublin 3)

VIRUS

I put my daughter on Postal Requests about three months ago as she had contracted a virus throughout her body. She was rushed into hospital three times with the pain. She had symptoms like diarrhoea, terrible pain and she lost nearly one stone in weight. The hospital were unable to diagnose her condition and naturally we were anxious to have the problem cleared so that she could get back to herself and be able to go to work again.

After putting her on Postal Requests the pain eased and then just went by itself. We never found out what it was but it did clear up and Debbie is now just great.

Gertie (Dublin)

Bowel Operation Avoided

Last year I put my brother's baby on the Postal Requests. At the time she was suffering badly with constipation. The poor little infant used to scream with the pain and it upset me to see her like this. Otherwise she was a good-humoured baby and always had a smile for us. Then it got to the stage that the doctor said she might need a little operation because he thought she had a blockage in her bowel. It was then I made up my mind to put her on the Postal Requests as I did not want her to have the operation. I had no doubt that the request would work

Baby Leanne

as I attend the healing myself and have had great results.

Within a very short time the problem vanished. Since then she has come on in leaps and bounds. I feel the Postal Requests have not only got rid of the problem but have brought her on in many ways.

Berni (Dublin)

Coma

A few weeks ago I telephoned your centre to have a friend who was in a coma put on Postal Requests.

I was assured that we would begin immediately to send out healing. Some hours later on that same day my friend came out of the coma to the amazement of everyone concerned and in particular the medical people. This to me was a wonderful answer to your prayer and positive thinking.

M.H. Galway.

Career Opportunity

I put my 17 year old son on Postal Requests because he had opted out of school and refused to study or train for anything. He didn't know what he wanted except he wanted an endless stream of money for smoking and drinking. I could see nothing but destruction ahead of him. Now I am thrilled to say he was accepted into the army and is undergoing intensive physical training. He is happy and disciplined and has a wonderful future ahead of him.

Business Result

Three weeks ago we placed our business on Postal Requests. Things had been going well up until then but there was always room for improvement and boy did it improve. Our weekly figures for the last three weeks have shown a vast improvement, but not only that, the whole atmosphere in the place is a lot more relaxed and organised and everything is just going so smoothly it's magic.

The difference in three weeks I have to say is fantastic. I've used Postal Requests before for personal reasons but in the last three weeks I've seen how it can be applied to every area of my life with the same fabulous results. It really is magic and I wouldn't hesitate to recommend it to anyone for any reason at all.

VIDEOS WORTH SEEING

We know you are amazed when you read some of the testimonials and maybe you feel they are too good to be true or are isolated cases. That's why we are now recording them on video. Some of the people, who through the formula/philosophy have achieved a richer life and/or overcome illness, have kindly consented to tell their story in the hope that it will help and encourage those who find themselves in similar situations. They truly make inspiring viewing. For times of showings call any of our centres. You will be most welcome.
