

Postal Requests Working for Family and Others

Many people use "Postal Requests" to make requests for their families. Often they have very specific requests and at other times the requests may be for general wellbeing. Here is a selection from Family Requests..

Flight to South Africa

Over the last couple of weeks I've been asking on my requests to go and see my family in South Africa. This week somebody phoned to say that they booked a flight for me to go in May. Also an aunt in Zambia also phoned and said a certain airline was offering a free ticket with every ticket bought, so tickets are coming from everywhere.

Colitis

I put Anne on Postal Requests in December - she was very ill in hospital with colitis which wouldn't heal. It was expected she would be in hospital for a very long time.

To our surprise and delight only two weeks after putting her on the healing she was sent home from hospital as she was well on the way to recovery and home for Christmas as well. She has continued to make steady progress. I couldn't wait to tell you the great result.

Family

I have my family on the Postal Requests. Initially two of them were seeking employment and had been for some time. I put on a request for both of them and within the month they both got jobs that they were delighted with. It was really so simple - just write the request - do nothing and wait for the result. This system has worked both for myself and my family many many times with unbelievable results.

Speedy Recovery

Just a note to let you know my friend Mary who was having her operation on Wednesday is over it and is heading home today. When I asked for a speedy recovery I didn't expect it to be quite so fast. I have never used the Postal Requests before and I had no idea how much of the effort it has taken out of my life.

Brother's Career Request

A few months ago I put my brother on Postal Requests who was studying in university in America. He had lost his job with the university which meant he had no way to pay his fees and he was very concerned about this. As soon as I heard it I put him on the Postal Requests as I have had brilliant results in the past.

After about four weeks I heard from him again and he was absolutely delighted. The university had offered him his job back in the same position, which meant his money problems were greatly eased, if not completely solved. It was an absolutely perfect result. I would like to thank you very, very much.

Everything Getting Better

I wanted to let you know what I think of the Postal Requests system. I am a singer with a band and we were going abroad for a tour of Germany and I decided to use the system. The results were absolutely incredible. We had a hugely successful tour. Anything that seemed as though it might be a problem was ironed out very easily. Our van broke down early in the tour and we thought this was going to be a huge hassle but I telephoned the centre in Eccles Street and left word with the therapist and by six o'clock that evening we had a new van. We made a lot of good contacts that I know will be for our ultimate benefit. I have also been attending the

healing therapy since the end of last August. I was suffering with mood swings which deep down I thought would never end, but I feel wonderful now, extremely peaceful and balanced in myself. I know that everything in my life is getting better and better all the time and I trust that I am divinely guided and directed in my work and life. This is reinforced in the centre. I am going abroad to work again and I will use the Postal Requests system again. I cannot urge people strongly enough to come to the centre and try the healing therapy. Thank you very much.

A New Man

I have had many favours granted through Postal Requests, but I would like to say a very special thank you for one request I put in a couple of months ago. I put in the request for a relative of mine who is an alcoholic. He was drinking very heavily and was sinking to rock bottom. His life was a mess in every way. Shortly after putting in the request it became clear to him that his life was going completely in the wrong

direction and that he could never get on top of the drink problem while remaining in the negative atmosphere in which he was living.

He changed his job completely, went to live in a different area and has never taken a drink since. He now attends the healing therapy himself and is delighted with his new life. He is a completely new man. Thank God for Tony Quinn and his healing therapists and of course for Postal Requests.

Anxious Child

Recently I requested healing for my six year old daughter through Postal Requests. She had become extremely anxious, crying almost all the time, unable to play, too afraid to go to bed at night and generally being very difficult and negative.

Well, I just want you to know that you did a wonderful job. After one month on the Postal Requests she was completely transformed, settled, content, smiling even telling me how happy she felt. Also, as the days and weeks went by I felt that I had a different attitude towards her, as though suddenly I understood her better and seemed more in tune with her. I look at my daughter today and I thank God for people like yourselves. Keep up the good work.

Down's Syndrome

My nephew has been on the healing for the past while now and the results have been just incredible. He is a Down's syndrome baby and he was born with a hole in his heart.

A number of weeks ago he caught pneumonia and things didn't look too good for him. At one point he was given five hours to live by the doctors and his breathing was down to five breaths for every fifty breaths the machine was breathing for him. Immediately when I put him on the healing he went from 'not

improving' to 'starting to improve'. The next week I was able to report that his breathing was up to fifty breaths for every fifty the machine was breathing. Then the next week he further improved and was able to be taken off all morphine. By the end of the month he was strong enough to have an operation to stop a valve in his heart leaking. I am delighted with the results so far and I am keeping him on requests for further healing.
