# Prayer & Positive Thinking Requests

## Read this first

We will work on your requests with you. Postal Requests allow you to make a request for yourself or another for success, healing, self or life-improvement. Working with a photograph of the patient, on a daily basis, we use the system of prayer and positive thinking for a successful outcome. It can take place without the therapist and patient meeting. Distance is no problem and it can be conducted by post. In this way we can work together for a successful outcome.

The purpose of our organisation is to encourage people to use this approach for a better life, so we send you further information to enable you to work this system yourself.

## How to use our Prayer & Positive Thinking Postal System

If you want our team to work on your requests then all you have to do is fill in the Request Form on the opposite page and post it to the address given together with (where appropriate) a photograph, and simply leave the rest to us.

## Videos worth seeing

We know you are amazed when you read some of the testimonials and maybe you feel they are too good to be true or are isolated cases. That's why we are now recording them on video. Some of the people, who through the formula / philosophy have achieved a richer life and/or overcome illness, have kindly consented to tell their story in the hope that it will help and encourage those who find themselves in similar situations. They truly make inspiring viewing. For times of showings call any of our centres (listed on page 9). You will be most welcome.

FOR A FULLER UNDERSTANDING OF THE PRINCIPLES OF THIS SYSTEM SEE PAGES 1 & 2, 12 & 13.

**'If you want something, believe that you have it without any inner doubt'**

*This simple principle brings results to hundreds of people each week for all types of situations.*

*Here we feature a selection of the many letters we receive.*

## Epilepsy

I sent in a Postal Request for my young nephew who was diagnosed as having an activity on the left side of his brain that indicated a particularly nasty form of epilepsy. My request was that the activity would stop. Soon after I made my request he was admitted into hospital for further tests and with no further treatment his tests

showed up clear. No treatment was necessary.

I feel it's about time people really knew about the healing. You can make requests and sit back and see them come about.

I feel if people in other countries knew about the results that others are getting through the system they would be flying over to Ireland to find out more about it.

## Money

I am very pleased to report that my request for money came about. In a very unexpected way I have received £6,000. This system works for me magically. Thank you, **L. (Dublin)**

## Family Requests

I have been using Postal Requests for five years now with very successful results. My whole family have greatly benefited from this system. Here are some of my requests granted.

1.. My house was sold for cash two weeks after

making the request.

2.. My husband's job as a pipe welder abroad is going brilliantly well for him. He says all the effort is gone from his work. To quote him, "It's like someone takes the tool and does the work for me".

3.. My daughter has won medals for basketball competitions.

4.. Our family have been brought together in a special way which I attribute to Prayer & Positive Thinking Requests.

Many thanks, **Patricia Fitzpatrick. Castleblaney.**

## My Own Business

Before starting my own business, I put it on the Postal Requests. In the past twenty months since we opened, our work force has gone from five to eighteen and last week we won a prestigious award for our marketing. I would recommend the Postal Requests to anyone.

## Jobs

I had my family on Postal Requests for the past month and I am very happy with the results.

One of my family got a job after being unemployed for some time. She got the job she wanted. My two other children changed their job to what they really wanted to do. Everything happened without any great effort. Everyone in the house has improved during the past month, there is a great unity between everyone. Thank you. **A happy mother.**

## Family Business

I started using Postal Requests three years ago to help my family business and also to particularly help my mother whose health was not too good. My family have made more money in the past three years than the previous thirty. They were all unaware of the request for them.

Members of my family are coming back to me and saying they can't understand what has happened it's so good. My mother's health has greatly improved also. **Rita C. (Dublin)**

## Chest Infection

Over last Christmas our little girl aged three became ill with a chest infection and associated high temperature which did not

respond to medication. Within a few hours of contacting Postal Requests her temperature had returned to normal and she continued to make a dramatic and complete recovery over the next few days, much to our relief. As someone with considerable nursing experience in my opinion her rapid turnaround was quite unusual. Thank you for your invaluable assistance.
