Back Complaint

I feel I must write and thank you for the wonderful work you have done for me and for bringing real happiness into my life. A couple of months ago I became very ill and was rushed into hospital. After a lot of tests and so forth, a team of doctors was unable to diagnose my condition. After three days, I was discharged from hospital, still not knowing what was wrong with me and still in pain. It was then I decided to use the Postal Requests. I also attended the 'healing groups' in Eccles St. and afterwards spoke to the therapist. I was in such

pain and so distressed that the therapist contacted you in London and you recommended a relaxation session with her. During the relaxation, I was able to tell her exactly what was wrong and what had caused the pain, and as if by magic, the pain just dissolved and I felt better than I had ever felt before in my whole life. I felt so wonderfully well and happy, it was as if life had just begun. It's wonderful that even at a distance, one can get amazing results. The Postal Requests team are doing tremendous work and are deserving of the

Margaret Macken

highest regard. People should be made aware of the benefits of using this system - it's the best in the world. Yours sincerely, **Margaret Macken.**

Prayer & Positive Thinking Requests

Make your request for Success, Health, Healing, Self & Life-Improvement

Your Name (Block Capitals Please)

Correspondence Address:

Phone Number Date

The charge for Postal Requests is £20 per month for an individual or £40 for a family. We work on all requests on a daily basis for the full month. All requests are treated in strictest confidence. Cheques and Postal Orders should be crossed and made payable to Tony Quinn Centre. Please enclose a photograph if possible. (non-returnable).

Post to: Tony Quinn Postal Requests, 66 Eccles Street, Dublin 7. Telephone 01.830-4211.

Asbestos Cancer

My brother was given no hope as he was suffering from asbestos cancer and was at the point of saying goodbye to his family. A Blueprint for Living newspaper came through our door and we included him on Postal Requests. The first week he just got worse. He was in intense pain. The only relief he got was when he was lying down. The second week there was a big improvement. The pain was nearly gone. He had been suffering with terrible perspiration which also cleared up. He went from being so weak he couldn't dress himself or even bath himself to being able to look after himself again. He started eating and is putting up weight. His medication has been cut down and he has started walking. He even went out shopping with his family. He's now planning to go on holidays. **Mary (Dublin)**

A Beautiful baby Boy

My brother and his wife had been hoping for a baby for a very long time with no joy. Believing that life works in mysterious ways I sent in a Postal Request for their dearest dream to be granted. I am happy to report that they now have a beautiful baby boy, aged 10 weeks.

Ann (Dublin).

Lump on Breast

I lost a lot of weight recently. I had no energy. I looked pale and run down. I finally decided to go to the doctor who did all sorts of tests including a mammogram. Much to my dismay the mammogram showed a lump on my breast. The biopsy that followed was inconclusive and I was advised to have the lump removed as soon as possible.

I immediately put myself on Postal Requests and two weeks later went back for a further mammogram. It showed up all clear - there was no sign of the lump. I believe that the power of prayer and positive thinking had a tremendous effect on me in every way not just physically. I have more energy now and my weight is back up.

Margaret (Wicklow).

Margaret

Stroke

Last October my eighty year old mother took a stroke. She lost all power in her left side and didn't know us. She was very confused. The doctor told us the outcome would be that she would be bedridden for the rest of her life. I put her on Postal Requests straight away. We took her

home. After a few weeks we began to see great changes in her. She got the power back and started to walk

again. The awful confusion lifted. She continued to get better all the time. When she went back into hospital with an infection the doctor and nurses could not believe the change in her. They kept coming to us saying how much she improved. She is now going around on her walking aid and is in great form. Thank you,

Margaret Agnew (Dundalk)

M.E. ... Recovery

Last year I was hospitalised with a mysterious illness and had to undergo a series of tests, none of which was conclusive. A final diagnosis took two months and the opinion of ten doctors. At twenty years of age to be diagnosed with chronic fatigue syndrome was a devastating blow. I had resigned myself to lead a sheltered life and was bedridden for many weeks.

My friend Michael Dillon included me on Postal Requests and I found the system to be most helpful. My situation was turned around completely. My attitude to my illness changed and I was able to lead a much more normal life. I am still recovering but I am 100% better compared to what I was. The Postal Requests can be done anytime, anywhere, regardless of distance and I always receive a positive result.

Lia Fariach (Melbourne, Australia).

Cerebral Palsy

The doctor sent my 3-month old niece Ciara for tests and something was found in her blood which gave a 99% indication she had Cerebral Palsy. I put her on Postal Requests at that point. When she went back for back-up tests, her blood had normalised to such a degree that the problem no longer showed up. We were absolutely thrilled. It was such a relief to get this result. Ciara has continued to improve ever since. She is now nine months old. **M.D.**

Special Note

Under no circumstances are we suggesting or implying that this approach should take the place of medical advice or, where necessary, medical treatment. However, we do believe that it is a useful addition to any form of therapy. All letters on this page are genuine. The originals are retained on our files and can be inspected where necessary.

All the letters published in this paper are published in good faith. They are kindly given to us by people who have used the Educo system. The system

essentially consists of making a switch in your mind from negative to positive - that is, focusing on a positive outcome.

The writers of these letters have learned to do this whether through attending our centres, reading our articles or when using positive thinking and prayer. The results are theirs. They have kindly shared them with us in the hope that they may inspire others to use the Educo system for their desired outcome. We cannot take responsibility for what is said in the letters for it is the individual's opinion. Nevertheless we believe each letter to be a true account of what took place. — The Publishers
