THE POWER OF YOUR MIND

The Postal Requests system is based on the Educo Formula "if you want something believe you have it without any inner doubt and it will come about". If you can wrap your mind one-directionally around what you want and relax all opposing thoughts, this action generates a response from your mind which favours obtaining the desired goal/request. The word Educo means to educate or draw out - the understanding being that you draw out success, health, healing and the life that you want from your mind. Of course, it might be asked, if it is that simple why can't everyone get the results they want on their own? Essentially they can but because of lack

of experience they may have difficulty focusing their mind one directionally on an image of the desired outcome. In addition where people are emotionally involved in the situation then worry, stress and anxiety interfere with their ability to relax and make no effort. In these situations the person may prefer to have us work with them also. We provide them with information on how to relax and believe in a positive outcome. We can also contribute by focusing one-directionally on their requests and because we are not emotionally involved in the situation our work is not hindered by opposing negative thoughts or emotions.

How to Use Educo Postal Requests

Our objective is to demonstrate the potential of the Educo system and to help you learn how to use this approach yourself. Educo Postal Requests enables us to work together, using the system with a specific goal/outcome in mind. In our experience the Educo system can be used to obtain results in every aspect of a person's life, from health and healing to success and self and life improvement. It is equally effective in obtaining results for others, who need not be aware of your request.

This is the procedure:

We invite you to write down your requests/goals and send them to us with a recent photograph where possible. We will then send you an explanatory brochure

containing more information and instructions on how to focus on your requests/goals to achieve the best possible results. We will also work on your requests with you, holding a positive mental attitude and focussing one-directionally on your desired outcome. We do this daily, for a month.

We ask you to write a report of progress once a week and to send or phone it to us. This is a very important part of the process. Our telephone helpline is open six days a week to answer your questions and assist you in making the most effective use of the system. There are also regular talks on the Educo system at our Educo Centre in Eccles Street, Dublin (details on request).

Many family results

Both myself and my family are getting amazing results from using the Postal Requests System. Some examples are: One of my sisters got the course in college she wanted, perfect accommodation and passed her driving test. My other sister got her perfect home and car and won a holiday. My brother got a wonderful job. Everything I request comes about perfectly for us. I feel it's the very best thing I can do for the whole family and would recommend it to everyone.

Caroline McDonagh, Dublin.

Note: Under no circumstances are we suggesting or implying that this approach should take the place of medical advice or, where necessary, medical treatment. However, we do believe that it is a valuable addition to any form of therapy.

Write out your goals and together we will put our minds to them.

If you want our team to work with you on your requests/goals then all you have to do is fill in this form and post it to the address below together with (where appropriate) a photograph. The charge for Educo Postal Requests is £25 per month for an individual or £40 for a family. All requests are treated in strictest confidence. Cheques and Postal Orders should be crossed and made payable to: Tony Quinn Centre.

Results for my father

I am writing to you to give you an update on a Postal Request I put in for my father in Sept. 1995. At the time he had a loss of memory, poor speech pattern, poor balance and was generally not himself. The doctors felt that it was the early stages of Alzheimers which I was shocked to hear. I had been using the Educo system for years with success so I felt I would get even better results by using the Postal Request team to work on this request. Almost immediately I could see the results. He started returning to himself and his speech pattern was much better. When he went into hospital for tests the doctors said they weren't sure what happened but all the tests were clear. Since then he is in great form, enjoying life, doing voluntary work in the local church and driving. He is well capable of looking after himself in every way.

Lorraine Preston, Dublin.

Cancer

I just want to thank the Postal Request team for an amazing result I got for a relation of mine who was diagnosed with cancer behind his lung. He proceeded with the operation 2 weeks after I made the request but when the doctors removed the tissue they found the cancer wasn't there. They were shocked. I have used the Postal Request System before and have always had great results.

G. O'C. Dublin

Greater self expression

I have used the Postal Request System many times. It has changed my life totally and I now use it all the time to give me direction and the quality of life that I have always wanted. A recent example was when I was selected to go forward for the final of the Miss Club L.A. in Waterford. There was a huge amount of attention on the contest and on the girls with photographers taking dozens of photographs for the newspapers. Surprisingly I wasn't daunted by the thoughts of any of it. I felt really positive and it seemed everyone was behind me - the staff, the judges and the crowd - it was great!

The night was a great success for me as it was a split decision between me and the eventual winner. More importantly, because of the result and putting myself forward in this manner I now feel that I can put myself forward in every direction of my life. Before I started using the Educo system I would never have been able to do anything like this nor would I have the same enthusiasm, confidence or ambitions in life.

Deirdre Dempsey, Waterford.
