

## Sports success

Clare has been on Postal Requests for the last few weeks for hayfever. She usually get complications with it like asthma and chest infections. Her health is good. Last Tuesday she asked me to put in a request for her to do well in the school sports. She got five medals and an overall trophy for her year, also, she got a trophy for the "Best Girl in the School at Sports". She was delighted with this result. Also the same day my husband won £100 in work. Thank you for your Postal Request system. I always find it fantastic and will continue to use it in the future.

## Artistic success

A few weeks ago I made a request that I sell two pieces of sculpture at an exhibition. Right away I received a phone call to say that the two pieces had been sold. Nothing can describe the excitement and personal satisfaction that you experience from selling something, at an open exhibition, which is derived from your own creativity and fashioned by your own hand and eye. Generally as an artist I find that Tony's system works a treat in every aspect of my life and I would have no hesitation in recommending it to others in the creative arts. Thanks a million for your help and support.

N. O'Neill, Dun Laoghaire.

## Family results

I'd like to acknowledge the gifts that have come to me and my family and friends from using the Educo system. I have been attending the Successful Living sessions in Eccles Street and have been learning how to use this formula for myself. The result is I love my life. Not an aspect of my life would I change now. I use Educo Postal Requests for my family and friends and I have been getting fantastic results for them. My successes include a job for my daughter who had applied for it along with countless other people. We were delighted with this result. Following a request for my husband's business to increase the phone never stopped with so much work coming in. In fact it was almost too much to handle. I would just love to be able to turn the key in people's minds to help them discover how to use their mind in the right way.

## Business results

I used the Educo Request system for the first time a couple of years ago. I quickly learned how to put this formula into practice and since then remarkable positive changes have occurred in my career and life. I worked for a multinational company for over 15 years and had a good salary, but I had lost my motivation in spite of some promotions over the years. The first big change came when myself and my wife, who was also well established in her career, decided we were emigrating to the USA. We had no jobs lined up and not only that but we were going where we know nobody. Since we moved out here we have been hugely successful using the system. So much good fortune came our way, it would be hard to report on every positive step. I am astonished at the potential I am discovering in myself. Today we stand on the brink of owning a company worth 5 million dollars with huge potential to grow. I can only say that the events that have led us to having all of the jigsaw falling into place, came about from being connected to like-minded one-directional people like Tony and Aileen who were working on our behalf.

## Cancer

My sister was diagnosed with cancer seven years ago. She went into remission at that stage. However two years ago she was diagnosed with a re-occurrence, this time with secondaries affecting her spine and liver. I have been using the Educo formula for some time with very favourable results so I included her in my requests for the perfect result. It helped me enormously that I could deal with the situation with the Educo approach and feel the absolute certainty that all was going to be OK no matter what. Doing courses at the Tony Quinn centre helped me even more as I was constantly in touch with the kind of positive thinking that gave me that belief in myself and the power of life within. I did all the practical things I could do for my sister - I got vitamins and any supplements I felt would do her good. Now two years later, she is back at work - her skin and hair looking better than ever before. I attribute her progress to allowing this simple formula to work for her as it has for me in my life. It is wonderful to be able to participate in a system where there is so much support for people getting their results. I am completely in favour of this approach being available for people to use in their lives.

## Relief from pain

I am writing to thank you for your help with a recent result. As you know both myself and my wife are great believers in the Educo system. I suffered a very serious knee injury playing rugby recently. I was operated on and suffered a lot of pain afterwards. The following day my wife was in visiting me in hospital and I was in agony again. From being on seminars with Tony Quinn we both have a lot of experience of using the Educo approach and my wife has used it successfully in the past to control pain. After she had gone I lay back in the bed to try and apply it. For no apparent reason the pain went, it just lifted off me. I was amazed at the difference using the Educo system made to how I felt. I rang her shortly afterwards just to reassure her that I was fine and to explain what had happened. She told me that the moment she left the hospital she rang in a request for me. I feel that her belief and the Educo team working together helped produce that result for me.

## Using Educo in Australia

Just a short note to thank you for all your support over the last number of years. My results have included a brilliant new job and the perfect boss. In the last year I have cleared debts that I never dreamed possible. One of the highlights to be acknowledged is a request for a close friend who had a car accident. The prognosis was he would suffer from brain damage. He has now made a full recovery. Other results include stopping smoking and a business result for a friend. It is with your support using Educo that I find myself with such positive results. I have always wanted to visit Australia and I am happy to be writing from the Southern Hemisphere to acknowledge them. Yours sincerely,

Mary Matthews, Sydney, Australia.
