How to Use Educo Postal Requests

Our objective is to demonstrate the potential of the Educo system and to help you learn how to use this approach yourself. Educo Postal Requests enables us to work together, using the system with a specific goal/outcome in mind. In our experience the Educo system can be used to obtain results in every aspect of a person's life, from health and healing to success and self and life improvement. It is equally effective in obtaining results for others, who need not be aware of your request.

We invite you to write down your requests/goals and send them to us with a recent photograph where possible. We will then send you an explanatory brochure containing more information and instructions on how to focus on your requests/goals to achieve the best possible results. We will also work on your requests with you, holding a positive mental attitude and focussing one-directionally on your desired outcome. We do this daily, for a month. We ask you to write a report of progress once a week and to send or phone it to us. This is a very important part of the process. Our telephone helpline is open six days a week to answer your questions and assist you in making the most effective use of the system. There are also regular talks on the Educo system at our Educo Centre in Eccles Street, Dublin (details on request).

Professional success

For seven years I have been in touch with you each week and since then my health (which at times was rather shaky) as well as my professional life have improved substantially. I could even say that my life energy is stronger now than it had been when I was 10 years younger and during the last few years I have definitely reached the peak of my professional career. As

you know I am in a top class international job which during the current year has even taken me to China. The weekly reports serve as an occasion to bundle my thoughts, gain an overview over my activities and see myself and my life with the distance of an observer. This alone is a life support and helps me in routing my daily discipline, in addition to the feeling of being protected by positive energies.

Many family results

I am delighted to take the opportunity to write about my success while using the Postal Requests system. I have used the system for several years to help me to achieve goals from personal achievement to business success. The system has helped me to become very clear minded to such a degree that what I want to come about happens easily for me. Not only have I achieved excellent results but all my children have learned how to use the system and have had numerous requests come about. These range from physical health to success and to

personal growth and general life improvement. My son has had excellent results in sports and his junior cert results were way beyond what was expected of him. I recommend the Postal Requests to help families to build a better life together.

Recovery from illness

I have been using the Postal Requests system for many years always with amazing results. Recently my brother was diagnosed with Crohn's disease and was admitted to hospital for treatment. He had lost a lot of weight, had no energy and also had great difficulty in eating. He was told that treatment for the condition could take anything

from 2 months to 1 year in hospital. I know when I made the request that he was going to get the perfect result. Within 2 weeks his energy improved, he started to eat again and his weight increased to normal. There was also a noticeable positive difference in his outlook on life. Many thanks for all your help

Achieving my ambitions

Some of the requests granted to me include the following. I requested an exotic holiday and was chosen to sail on the Asgard sail-training ship in the Tall Ship's Race. In addition I enjoyed great success in all my exams while at college and was awarded student of the year on two occasions. I also won a scholarship to study

in Spain. Also a family member made a speedy recovery following major surgery recently and a friend who was suffering from a serious illness was granted a remission. I would recommend the Postal Requests system to anyone who wants to realise their dreams and achieve their ambitions. The system will change the way you live your life.
Mary, Dublin.

The Educo System

Tony Quinn reveals the secret of how to use your mind to have the life that you want.

The word Educo means to draw out from within. Our aim is to teach people how to use their minds to obtain the goals they want. In a nutshell, we believe that if you take all of your mind power and focus it on a successful outcome then, providing there are no opposing thoughts, you dramatically increase the odds in your favour. The real purpose of Postal Requests is to open peoples' minds to a new approach to living and to encourage them to think in this fashion. That is, to only focus on what you want while not allowing any mind power to dwell/focus on what you don't want. I encourage you to just do this for 1 day and discover the life changing benefits. It's not hard to do, most people find it easy to give their mind power and attention to stress, worry, problems. Now, instead, just apply the same mental intensity to your goals. I continually point out to people, "the difference between success and failure is a small switch in your way of thinking".

Please realise that you can have the life of your dreams by putting into practice what you are reading here. Burn the following into your mind. Say your total mind power consists of 10 units, if 3 units are taken up with the successful completion of your goal and 7 are taken up with thoughts of failure, worry, fear etc then you will fail. Keep doing this and you will never draw out (Educo) your awesome, yes awesome human potential. You will only see this potential when you apply all of your mind power to your goal. This is exactly what the world's greatest achievers have learnt to do. If you want to live your life to the fullest you must learn to do this also. So, remember then, the life transforming secret is just to clear your mind and only focus on the successful completion of your goal.

The major difference.

The major difference between our Postal Requests and that of others is that our emphasis is on you bringing about the result.
