How to Use Educo Postal Requests

Our objective is to demonstrate the potential of the Educo system and to help you learn how to use this approach yourself. Educo Postal Requests enables us to work together, using the system with a specific goal/outcome in mind. In our experience the Educo system can be used to obtain results in every aspect of a person's life, from health and healing to success and self and life improvement. It is equally effective in obtaining results for others, who need not be aware of your request.

We invite you to write down your requests/goals and send them to us with a recent photograph where possible. We will then send you an explanatory brochure containing more information and instructions on how to focus on your requests/goals to achieve the best possible results. We will also work on your requests with you, holding a positive mental attitude and focussing one-directionally on your desired outcome. We do this daily, for a month. We ask you to write a report of progress once a week and to send or phone it to us. This is a very important part of the process. Our telephone helpline is open six days a week to answer your questions and assist you in making the most effective use of the system. There are also regular talks on the Educo system at our Educo Centre in Eccles Street, Dublin (details on request).

Results for my children

I am a regular user of the Postal Request system. From keeping my mind on my goals and getting the team to assist me I have been getting brilliant results. My son had to have an operation which was of a very serious nature. I placed him on the Postal Requests System and the entire operation went very smoothly and worked out really well. My daughter

has a rare form of dyslexia. When I placed her on the Postal Request she did tremendously well and gained excellent results in an academic setting which was thought to be highly unlikely and very unexpected. I've also gotten tremendous results using the System for people outside the family. I just want to finish by saying that I am deeply grateful for all my results.

Alzheimers

My mother had been ill and depressed during much of last year. Last September, following a scan, she was diagnosed as having Alzheimer's. Our family was devastated by the news. I immediately put her on the Postal Requests. She was admitted to hospital suffering from depression, and while in

hospital they conducted a further scan some three months after the first scan. On this occasion the scan showed no evidence of Alzheimer's. Soon after this, her depression cleared and she was able to leave hospital. She is now in much better form and getting progressively stronger. Many thanks for a wonderful result.

Marsha's story

On the 4th February this year, I awoke to the shocking news, that my daughter Marsha had been in a car accident. She was lying in the intensive care unit of St. James Hospital unconscious in a weak condition. When we arrived at the hospital Marsha could not breathe and was being assisted with the help of a machine. As I have used the Postal Request System many times in the past, with great success I rang Aideen with the details.

From the moment I put her on the Postal Request system, Marsha started to improve greatly. By 11.30 that morning she had regained consciousness and was much stronger.

The progress she made was astounding, within 2 days she was out of intensive care and in a ward. Everyday I saw her, I could see a marked improvement in her physical condition and after only 2 weeks she was allowed home.

Having used the Postal Request System many times in the past and the Successful Living Sessions I would just like to say to people, please use this system for yourself or your families who need help. Also I would like to thank the Staff of St. James Hospital in particular the Intensive Care Unit for the care and support they gave my daughter.

The Educo System

Tony Quinn reveals the secret of how to use your mind to have the life that you want.

The word Educo means to draw out from within. Our aim is to teach people how to use their minds to obtain the goals they want. In a nutshell, we believe that if you take all of your mind power and focus it on a successful outcome then, providing there are no opposing thoughts, you dramatically increase the odds in your favour. The real purpose of Postal Requests is to open peoples' minds to a new approach to living and to encourage them to think in this fashion. That is, to only focus on what you want while not allowing any mind power to dwell/focus on what you don't want. I encourage you to just do this for 1 day and discover the life changing benefits. It's not hard to do, most people find it easy to give their mind power and attention to stress, worry, problems. Now, instead, just apply the same mental intensity to your goals. I continually point out to people: *"the difference between success and failure is a small switch in your way of thinking"*.

Please realise that you can have the life of your dreams by putting into practice what you are reading here. Burn the following into your mind. Say your total mind power consists of 10 units, if 3 units are taken up with the successful completion of your goal and 7 are taken up with thoughts of failure, worry, fear etc then you will fail. Keep doing this and you will never draw out (Educo) your awesome, yes awesome human potential. You will only see this potential when you apply all of your mind power to your goal. This is exactly what the world's greatest achievers have learnt to do. If you want to live your life to the fullest you must learn to do this also. So, remember then, the life transforming secret is just to clear your mind and only focus on the successful completion of your goal.

The major difference.

The major difference between our Postal Requests and that of others is that our emphasis is on you bringing about the result.
