Educo Postal Requests

Our objective is to demonstrate the potential of the Educo system and to help you learn how to use this approach yourself. Educo Postal Requests enables us to work together, using the system with a specific goal/outcome in mind.

In our experience the Educo system can be used to obtain results in every aspect of a person's life, from business, health, healing, success to self and life improvement. It is equally effective in obtaining results for others, who need not be aware of your request. The major difference between our Postal Requests and that of others is that our emphasis is on you learning to bring about the result.

When a person makes a request for themselves or another we

- (1) Send them information on how to apply their minds to achieve their goal,
 - (2) Provide telephone help lines, where when necessary the person can call for further information and encouragement,
 - (3) The person also has the option of coming to one of our centres for an individual or group session,
 - (4) Finally, myself and Aileen Cowman also apply our minds to the request for a successful outcome
- Ultimately we want the person to use this approach in their everyday life.

How to Use Educo Postal Requests

We invite you to write down your requests/goals and send them to us with a recent photograph where possible. We will then send you an explanatory brochure containing more information and instructions on how to focus on your requests/goals to achieve the best possible results.

We will also work on your requests with you, holding a positive mental attitude and focussing one-directionally on your desired outcome.

We do this daily, for a month. We ask you to write a report of progress once a week and to send or phone it to us. This is a very important part of the process. Our telephone helpline is open six days a week to answer your questions and assist you in making the most effective use of the system. There are also regular talks on the Educo system at our Educo Centre in Eccles Street, Dublin (details on request).

Note: Under no circumstances are we suggesting or implying that this approach should take the place of medical advice or where necessary medical treatment. However we believe that it is a valuable addition to any form of therapy

**Write out your goals and together
we will put our minds to them.**

If you want our team to work with you on your requests/goals then all you have to do is fill in this form and post it to the address below together with (where appropriate) a photograph. The charge for Educo Postal Requests is £25 per month for an individual or £40 for a family. All requests are treated in strictest confidence. Cheques and Postal Orders should be crossed and made payable to: Tony Quinn Centre.

Recovery from Stroke

My sister had a bypass operation six weeks ago. After two days there was no sign of her coming around. The doctors did a scan and discovered that she had had a bad stroke leaving her paralysed on the right side. She came around after five days and we discovered she had also lost her speech. I put her on the Postal Requests immediately. The very next day her right side started to move again. She is now up moving and her speech is back. She is alert and totally aware of what's

going on. It is wonderful to see the change in her almost daily. The doctors found it unbelievable that my sister made such a recovery and continues to recover at great speed.

Mary Brennan, Dublin

Injuries Healed

Last week my 10 year old nephew had an accident putting his hand through a plate glass window and seriously damaging it. We did not realise the extent of his injury until he got to the hospital. I rang the Educo Postal Request team and asked they work on him. He underwent surgery which lasted an hour and 45 minutes. The amazing thing is

that during the whole ordeal he was completely calm and relaxed, the nurses and doctors could not get over how bright and relaxed he was. He asked them lots of questions about what exactly they were doing to him. Even when he got the anaesthetic he asked "has the magic gone in yet". He is making a remarkable recovery.

M.M. Dublin

New direction in life

I put my son on the Postal Request System after he came home from the States. He was in bad form, lacked direction in his life, had no job and his relationship with his girlfriend wasn't working out. Within two weeks of making the request, not only did he get a job

that he loves, he got himself the perfect apartment and his relationship with his girlfriend is working out perfectly. There really was such a turn around in two weeks and I attribute these results to the Postal Requests System.

Annie, North Dublin

Improvement in health

My Dad is in his late seventies and recently had a major heart operation. Some days after the operation we were worried about his progress so I placed him on the Educo Postal

Requests. Since then he has improved remarkably and is now walking around the garden and going on short journeys. He is in great spirits, his humour has greatly improved and he has become very optimistic.

Phil, North Co. Dublin
