& Aideen Cowman

**Write out your goals and together
we will put our minds to them.**

If you want our team to work with you on your requests/goals then all you have to do is fill in this form and post it to the address below together with (where appropriate) a photograph. The charge for Educo Postal Requests is £25 per month for an individual or £40 for a family. All requests are treated in strictest confidence. Cheques and Postal Orders should be crossed and made payable to: Tony Quinn Centre.

Does the person know of this Request? Age:

Details of your request

Post to: Educo Postal Requests, 66 Eccles Street, Dublin 7. Tel: (01) 830 4211.

How to Use Educo Postal Requests

Our objective is to demonstrate the potential of the Educo system and to help you learn how to use this approach yourself. Educo Postal Requests enables us to work together, using the system with a specific goal/outcome in mind. In our experience the Educo system can be used to obtain results in every aspect of a person's life, from health and healing to success and self and life improvement. It is equally effective in obtaining results for others, who need not be aware of your request.

We invite you to write down your requests/goals and send them to us with a recent photograph where possible. We will then send you an explanatory brochure containing more information and instructions on how to focus on your requests/goals to achieve the best possible results. We will also work on your requests with you, holding a positive mental attitude and focussing one-directionally on your desired outcome. We do this daily, for a month. We ask you to write a report of progress once a week and to send or phone it to us. This is a very important part of the process. Our telephone helpline is open six days a week to answer your questions and assist you in making the most effective use of the system. There are also regular talks on the Educo system at our Educo Centre in Eccles Street, Dublin (details on request).

Recovery from Accident.

I am writing to thank you for a wonderful result I obtained in relation to my brother. A year ago he was involved in a very bad road accident in which he was seriously injured and received severe head injuries that left him in a coma. Initially we were extremely concerned about him. He was given a very low rating on a scale of mental activity by his doctors and they were worried would he pull through. Right from the start I used the Educo Postal Requests system and I was very clear in my goal that he would come out of the coma and recover from the accident. It was hard to hold onto that goal in the beginning as he looked in such a bad

way lying there in the Intensive Care unit. At that early stage myself and my family found the support we received from the Postal Request team a great help in coping and keeping us focused on a positive end result. Within a couple of weeks much to the doctors' amazement he was out of the coma and he has continued to make steady progress from there. At one stage I put in a request that he would start to talk again and focused on that as a result. We were delighted when he started to speak within a few days. With the support of the team I found I was able to focus my mind on the results I wanted for him and each request I made in connection with his progress came about.

D. Dempsey, Waterford.

Results at Work.

As a result of using the Educo Postal Requests I have obtained incredible results in all areas of my life. I find it a great support especially in my job. I work as a nurse and at times it is very stressful. Using the system I can stay relaxed and really enjoy my work. I also find that it is a great help to apply the system when dealing with patients who are fearful or upset as it allows me to really focus on the best possible result for them. This allows me to be very reassuring and confident with them and

they respond well to that.

I enjoy being in the position to use this approach to help other people.

M. Redmond, Malahide.

Professional Success.

When I first heard about Postal Requests I was a little sceptical, but my sister had been using the system and encouraged me to do so. I did so and found it extremely beneficial. Firstly it made a huge difference to my family life. The relationship between my husband and myself improved dramatically. I was also much more patient with my 2 year old son. There immediate business improvements and its going better than ever expected.

My husband has since found employment that he is both happy and successful. Financially there is a definite improvement and my quality of life has improved greatly and continues to get better. Having used the system and seen remarkable results. I would encourage people to use the system and reap the benefits for themselves

The Educo System

The word Educo means to draw out from within. Our aim is to teach people how to use their minds to obtain the goals they want. If you take all of your mind power and focus it on a successful outcome then, providing there are no opposing thoughts, you dramatically increase the odds in your favour. The purpose of Postal Requests is to encourage people to think in this fashion, to focus on what you want while not allowing any mind power to dwell/focus on what you don't want. Instead of applying your mind power and attention to stress, worry, and problems just apply the same mental intensity to your goals. This small switch in your way of thinking is the difference between success and failure.

Please realise that you can have the life of your dreams by putting into practice what you are reading here. Say your total mind power consists of 10 units, if 3 units are taken up with the successful completion of your goal and 7 are taken up with thoughts of failure, worry, fear etc then you will fail. Keep doing this and you will never draw out (Educo) your awesome human potential. You will only see this potential when you apply all of your mind power to your goal. This is exactly what the world's greatest achievers have learnt to do. If you want to live your life to the fullest you must learn to do this also.

The major difference between our Postal Requests and that of others is that our emphasis is on you bringing about the result. For example, when a person makes a request for themselves or another we (1) send them information on how to apply their minds to achieve their goal, (2) provide telephone help lines, where when necessary the person can call for further information and encouragement, (3) the person also has the option of coming to one of our centres for an individual or group session, (4) finally, myself and Aideen Cowman also apply our minds to the request for a successful outcome. Ultimately we want the person to use this approach in their everyday life.

EDUCO FOR EVERYONE.

Our aim then is to provide the necessary information so that anyone who wants can learn to use their minds for best results. This information is available through free talks and video material and in this newspaper. Training in the Educo approach is available through, Postal Requests, Successful Living Sessions, audio tapes, video seminars, exclusive seminars, right up to individual one-to-one I do with clients (see main article pg 1). You may be one of those people who want to live the life you are currently only dreaming about. I'm here to tell you we can make it happen together. Whatever point you are at - start now to use this information to be all that you can be.

Tony Quinn.
