**Great news for Suntanners**

It's that time of the year when we dig out our summer clothes, head out to the beach and soak up those lovely tanning rays. You can't beat a nice tan to have us looking and feeling our very best.

The great news is that it now may be possible with the aid of certain nutrients to tan faster and deeper than ever before. These nutrients are said to be involved in the body's production of melanin—the pigment that helps you tan.

### Your best tan ever

Many health-conscious sunseekers now believe that taking these nutrients may enhance the body's production of melanin. These important nutrients, one a protein extract known as L-Tyrosine plus the mineral copper are now available in capsule form as Ultra Bronze and together with sun exposure may enable you to develop your best suntan ever! Think of what this would mean to you. You'd be the envy of all your friends with your lovely colour.

### Fair Skin tanning

Ultra Bronze capsules are suitable for all skin types. Many people who have never had a tan in their lives were able to achieve a colour for the very first time by using our products. It's nice to be able to make the most of the sun when we can get it.

**Price £13.95**

**MAKE THE MOST OF YOUR SUNBATHING BY USING BOTH PRODUCTS TOGETHER**

**SPECIAL OFFER**

**Purchase both products for just £25.00**

## AFTER-SUN SKIN CARE

Sun, wind, salt water, constant shampooing and even some foods can have a harsh drying effect on our skin and hair. Replenish your body's natural moisture through proper nutrition and the topical application of a real moisturiser.

### Help Soothe Sunburn

Because it may help replace lost moisture and sinks into the skin without the need for excessive rubbing, Hydration 7 sprayed onto the skin is soothing in relieving the pain of sunburn and helpful to skin recovery with a minimum of peeling.

### Hair Conditioner

This revolutionary new product can also be used as a hair conditioner - particularly where the hair has been dried out by the sun or salt water or has suffered structural damage from modern hair processing e.g. colouring and body waves.

**Price £6.95**
