RILLIANT SKIN &

and back. This made me depressed and seemed to affect my whole life in a completely negative way. I began trying creams and face washes but they had no effect.

I visited my doctor who gave me antibiotics and a cream but again this failed to bring results. I went to a dermatologist who gave me another cream which seemed to be burning my skin and this did not work

I was absolutely miserable

I was absolutely miserable.

I visited your store in Rathmines where I was given a short list of foods to avoid and told to eat a more balanced diet which included fresh fruit, fresh raw salads and lean meat. I was told to include the food supplement Special Liver Formula and Brewer's Yeast Powder (not tablets) which I took twice daily.

Calcium and Magnesium tablets were added to the list

Itst.
My skin began improving after the second week and then after the fourth week my skin had dramatically improved. It is now completely clear and there is a healthy glow to my face. I feel really healthy and full of energy. I believe that the change in diet and especially the Special Liver Formula helped improve my health and wellbeing.

Dave McGlynn, Dublin

LIVER FORMULA; One months supply £13.95

Do You Suffer From Body or Foot Odour?

Unlike normal deodorants which only mask or camouflage odours for a few hours this new medically tested cream can eliminate body or foot problems for up to 15 days - with just one application **Lasts Over 4 Months**

And there are many more unique advantages to this remarkable product. For example it does not inhibit the normal function of the sweat glands. No need to re-apply after showering or bathing. Heavy work including exercising doesn't seem to prevent it from working. Tests prove one application can last 15 days, (though we have found in many cases much longer.)

One jar can last 4 to 8 months. This new long-life deodorant would certainly seem to make all others obsolete. Called *Lavilin* it is made from herbal extracts and is simple and quick to apply. Available in two strengths, one for the body and a more potent form for feet.

Body Deodorant Price £7.30 - Foot Deodorant Price £9.95

Special Note: Under no circumstances are we suggesting that the products featured in this newspaper should take the place of medical treatment. However we believe that they may be a useful addition to any health programme. These products have not been medically proven in clinical tests.
