## Educo Postal Requests

Our objective is to demonstrate the potential of the Educo system and to help you learn how to use this approach yourself. Educo Postal Requests enables us to work together, using the system with a specific goal/outcome in mind. In our experience the Educo system can be used to obtain results in every aspect of a person's life, from business, health, healing, success to self and life improvement. It is equally effective in obtaining results for others, who need not be aware of your request. The major difference between our Postal Requests and that of others is that our emphasis is on you learning to bring about the result. When a person makes a request for themselves or another we

- (1) Send them information on how to apply their minds to achieve their goal,
- (2) Provide telephone help lines, where when necessary the person can call for further information and encouragement,
- (3) The person also has the option of coming to one of our centres for an individual or group session,
- (4) Finally, myself and Aideen Cowman also apply our minds to the request for a successful outcome

Ultimately we want the person to use this approach in their everyday life.

## How to Use Educo Postal Requests

We invite you to write down your requests/goals and send them to us with a recent photograph where possible. We will then send you an explanatory brochure containing more information and instructions on how to focus on your requests/goals to achieve the best possible results.

We will also work on your requests with you, holding a positive mental attitude and focussing one-directionally on your desired outcome.

We do this daily, for a month. We ask you to write a report of progress once a week and to send or phone it to us. This is a very important part of the process. Our telephone helpline is open six days a week to answer your questions and assist you in making the most effective use of the system. There are also regular talks on the Educo system at our Educo Centre in Eccles Street, Dublin (details on request).

**Note:** Under no circumstances are we suggesting or implying that this approach should take the place of medical advice or where necessary medical treatment. However we believe that it is a valuable addition to any form of therapy

**Write out your goals and together  
we will put our minds to them.**

If you want our team to work with you on your requests/goals then all you have to do is fill in this form and post it to the address below together with (where appropriate) a photograph. The charge for Educo Postal Requests is £25 per month for an individual or £40 for a family. All requests are treated in strictest confidence. Cheques and Postal Orders should be crossed and made payable to: Tony Quinn Centre.

## Remarkable Recovery from Stroke

On Dec. 28th my mother experienced a stroke affecting her speech and leaving her without movement on her right side. Three weeks later the consultant told her there was little hope of improvement as she had suffered brain damage. Four days later I put her on the Postal Requests. The doctor booked her into a rehab centre, but he told us he was doubtful of improvement. By the 9th of February my mother could walk well with an aid, wash, dress and feed herself. She believes that she is better than she has ever been in her life. The doctors and occupational therapist shook their heads in astonishment at the miracle of her. My mother knows that she is being looked after and has asked to remain on the

Postal Requests for her complete recovery. In less than two weeks she returns home to continue her remarkable recovery. At this point she can walk on her own and is ready to throw away the walking frame. Many thanks, Ann Marie Costello, Clontarf.

## Burns Healed

My nephew Adam aged five had a bad accident five weeks ago. He suffered very bad first degree burns as a result of catching his foot in the wheel of my bike and the spokes sliced layers of skin off his ankle bone. He passed out with the pain and shock and was rushed to Temple Street hospital. I immediately put him on the Postal Requests as the doctor in the

hospital told me his ankle would take up to four months to heal and there was a very high chance of infection and ulceration. From being on the Postal Requests he healed in four weeks, absolutely perfect with not even one scar. Adam O'Keefe, Cabra

## Brilliant Business Results

I would like to thank you for the many brilliant business results that our company has received with the Postal Requests system. Our business has gone from strength to strength since using the system. We seem to just attract the right business contacts and our monthly turnover has definitely increased. I

find we only have to focus on a target and ask your team to do this also on our behalf, and so many times we hit the target exactly. This system takes away the mental stress associated with business, and I recommend it to everyone. Mary Newman, North Dublin
