Special Note: Under no circumstances are we suggesting that the products featured in this newspaper should take the place of medical treatment. However we believe that they may be a useful addition to any health programme.

ACNE

SEVEN years ago I developed acne on both my face and back. This made me depressed and seemed to affect my whole life in a completely negative way. I began trying creams and face washes but they had no effect.

I visited my doctor who gave me antibiotics and a cream but again this failed to bring results. I went to a dermatologist who gave me another cream which seemed to be burning my skin and this did not work either.

I was absolutely miserable.

I visited your store in Rathmines where I was given a short list of foods to avoid and told to eat a more balanced diet which included fresh fruit, fresh raw salads and lean meat. I was told to include the food supplement Special Liver Formula and Brewer's Yeast Powder (not tablets) which I took twice daily.

Calcium and Magnesium tablets were added to the list.

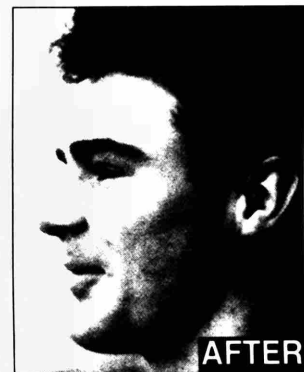

My skin began improving after the second week and then after the fourth week my skin had dramatically improved. It is now completely clear and there is a healthy glow to my face. I feel really healthy and full of energy. I believe that the change in diet and especially the Special Liver Formula helped improve my health and well-being.
