Write out your goals and together we will put our minds to them.

If you want our team to work with you on your requests/goals then all you have to do is fill in this form and post it to the address below together with (where appropriate) a photograph. The charge for Educo Postal Requests is £25 per month for an individual or £40 for a family. All requests are treated in strictest confidence. Cheques and Postal Orders should be crossed and made payable to: Tony Quinn Centre.

Educo Postal Requests

Our objective is to demonstrate the potential of the Educo system and to help you learn how to use this approach yourself. Educo Postal Requests enables us to work together, using the system with a specific goal/outcome in mind. In our experience the Educo system can be used to obtain results in every aspect of a person's life, from business, health, healing, success to self-and-life improvement. It is equally effective in obtaining results for others, who need not be aware of your request. The major difference between our Postal Requests and that of others is that our emphasis is on you learning to bring about the result.

When a person makes a request for themselves or another we
(1) We send them information on how to apply their minds to achieve their goal.
(2) We provide telephone help lines, where when necessary the person can call for further information and encouragement.
(3) The person also has the option of coming to one of our centres for an individual or group session.
(4) Finally, myself and Aideen Cowman also apply our minds to the request for a successful outcome.
Ultimately we want the person to use this approach in their everyday life.

How to Use Educo Postal Requests

We invite you to write down your requests/goals and send them to us with a recent photograph where possible. We will then send you an explanatory brochure containing more information and instructions on how to focus on your requests/goals to achieve the best possible results. We will also work on your requests with you, holding a positive mental attitude and focussing one-directionally on your desired outcome.

We do this daily, for a month. We ask you to write a report of progress once a week and to send or phone it to us. This is a very important part of the process. Our telephone helpline is open six days a week to answer your questions and assist you in making the most effective use of the system. There are also regular talks on the Educo system at our Educo Centre in Eccles Street, Dublin (details on request).

Stressed Out

Dear Tony and Aideen.
Three weeks ago I put myself on Postal Request as I was having difficulties in both my job & in my personal life, getting stressed out & seeing no way out of it all. The results have exceeded my expectations. I'm much happier in myself and have found that my level of focus is much sharper in everything I do.
I found that once I decided to take the leap of faith and put myself on Postal Request that my job started getting much easier to stay on top of

& also that good results simply started coming to me - and that I was able to see new opportunities I couldn't see before.
It's brilliant to know that there is a system that really works which I can use if necessary. I am very aware that it's not just yourself & Tony that is bringing me these results, I am also aware that I myself have a huge effect on the outcome. It is very good however to know that I've got such a good influence behind me in everything I do. This is for me the part that tips the scales.
Thank you.

Family Request - widespread results

Thank you for working on my requests.
Since I started using the system my husband's business really is booming. He's also stopped smoking. I am much happier in myself and lots of things are turning around for me and my family.

Note: Under no circumstances are we suggesting or implying that this approach should take the place of medical advice or where necessary medical treatment. However we believe that it is a valuable addition to any form of therapy.

Healthy ever since

I am writing to thank you for your help with my business request I sent you early this summer. I was launching a new internet venture and sent a request asking for a successful launch. The day went very well and since then the project has continued to grow. I feel the postal request greatly assisted the smooth running on the day and following success.
Kind regards
Barry McDonagh.
Thank you for so much!

Healthy ever since

I have been using the request system for some years, on and off, but continuously since the beginning of this year. I have had so many positive results it's really quite incredible.
Most important of all was the news that I am pregnant, which I had put on my request.
Sometimes words just are not enough but thank you Aideen and Tony for so much.

Stroke - Amazing Recovery

I simply don't know how to thank you for the miracles happening in my life.
Thirteen months ago my 83 year old mother had a stroke leaving her speechless and powerless down the right side of her body. Medical opinion was that she was brain damaged - no rehabilitation to be offered.
Results to date: - (two postal requests)
My mother now lives back in her own

home. Walks, sometimes using the aid of a stick. Is out at social centers 5 days a week. She can cook, wash, dress herself and sew, and is back to her favorite pastime, knitting. She also has a sense of fun she never had before her stroke.
All of us are thrilled to have this new vibrant lady in our lives.

Back problem went away

As a result of an accident my daughter Patricia was suffering from severe back pain. On Sunday the problems got worse, suddenly, to the point where she had to be lifted in and out of bed.
She asked for a Postal Request to be sent in to Tony and team. She has great faith in the system and believed it would all be sorted out for her.
Well, her prayers were answered when on Thursday she just got up out of the bed and walked as normal. We were all astonished and delighted. What a result.
