Educo Postal Requests

Our objective is to demonstrate the potential of the Educo system and to help you learn how to use this approach yourself. Educo Postal Requests enables us to work together,

approach yourself. Educo Postal Requests enables us to work together, using the system with a specific goal/outcome in mind. In our experience the Educo system can be used to obtain results in every aspect of a person's life, from business, health, healing, success to self-and-life improvement. It is equally effective in obtaining results for others, who need not be aware of your request. The major difference between our Postal Requests and that of others is that our emphasis is on you learning to bring about the result.

When a person makes a request for themselves or another we (1) We send them information on how to apply their minds to achieve their goal.

(2) We provide telephone help lines, where when necessary the person can call for further information and encouragement.

(3) The person also has the option of coming to one of our centres for an individual or group session.

(4) Finally, myself and Aideen Cowman also apply our minds to the request for a successful outcome.

Ultimately we want the person to us this approach in their everyday life.

How to Use Educo Postal Requests We do this daily, for a month. We ask you to write a report of progress once a week and to send or phone it to us. This is a very important part of the process. Our telephone helpline is open six days a week to answer your questions and assist you in making the most effective use of the system. There are also regular talks on the Educo system at our Educo Centre in Eccles Street, Dublin (details on request).

We invite you to write down your requests/goals and send them to us with a recent photograph where possible. We will then send you an explanatory brochure containing more information and instructions on how to focus on your requests/goals to achieve the best possible results. We will also work on your requests with you, holding a positive mental attitude and focussing one-directionally on your desired

I feel unstoppable now

This is Tracy Dillon here from Australia. My family have been using Tony Quinn's success system for years and I have grown up with it. I also met Tony while visiting in Ireland

My dad keeps in regular contact with Tony's system both in Dublin and he has also been on a 2 week mind training course in the Bahamas given by Dr. Quinn. As a result of learning how to focus on my goals and make a switch in my mind I feel unstoppable. I made it into the State cross-country championships. The day of the race I felt a tingling sensation in my legs. I thought it was my nerves but soon found out it was much more. As I ran I could hear the whole crowd screaming as I came up to the 500m mark. I seemed to flick a switch in my mind which told me to run as I had never run before. I looked at

Operation not necessary

Healthy ever since

Healthy ever since

We recently put our 10 year old daughter
Naomi on Postal Requests. She had been
very ill with stomach pain and continuous
headaches. She was absent from school for 4
diagnosed threatened appendix. A couple of
months prior to this we had a son who had
an operation for appendicitis which did not
go very well and we were anxious to avoid
an operation for Naomi if at all possible. We
decided to put her on the healing
immediately.
The change in her, the very next day, was
amazing and she has been incredibly happy
and healthy ever since.

Academic Excellence

When my son started college he became the best poker player and social organiser in the college! Consequently he failed his first two years' exams and was asked to leave. I put him on Postal Requests and he returned to college to study for his degree.

Last year when he was about to sit his finals for his degree his relationship of four years broke up. He was very upset, at the very

Change for the better

I have used the Postal Requests system many times with lots of success for both myself and my family. Recently, I was worried about my daughter aged 6, who was just not happy in herself. All areas of her life were suffering school, she wouldn't take instructions, she was just getting continuously worse and worse. She was getting negative results with her dacting and swimming and she just wasn't relating to anybody.

wasn t relating to anybody.

I decided to use this system again and straight away as soon as I let Tony and team focus on the outcome I wanted – what a change for the better!

Now all aspects of her ufe have completely

Many thanks for this and all other results.
